SECOND PRELIMINARY AMENDMENT

Sir/Madam:

Submitted with this Preliminary Amendment is one sheet of drawing changes, with proposed changes marked in red, and a proposed substitute sheet with the drawing changes implemented, corresponding to Figure 2B of the above-identified patent application. Applicants respectfully request entry of this Amendment.

Amendments

Please amend the application as follows:

In the Drawings:

Pursuant to 37 C.F.R. 1.121(d), Applicants request amendment of Figure 2B as indicated in red on the enclosed copy of Figure 2B that was originally filed with this application. The following delineates the corrections proposed to Figure 2B:

- (a) The labeling of the conductive copper electrode layer, previously mislabeled as reference number 114, should be changed to reference number 111.
